TECH CENTER 1600/2900

Dear Sir:

In response to the restriction requirement dated April 15, 2003, Applicant hereby elects to initially prosecute the claims of Group II, corresponding to claims 20-48. As opposed to what is stated in the office action, however, claim 20 is directed to a process for producing and collecting a metabolic product. Claim 20 is not limited to a process for producing methane.

Applicants understand that claims 1-19 and 49-51 are withdrawn from further consideration as being directed to non-elected inventions.

Should the Examiner have any questions with respect to this response, he is invited and encouraged to telephone the undersigned at his convenience.

Respectfully submitted,

5/2/03
